General information

Article : 1PA19801 Pritxton Matisse 1080P projector
number

Description : The Matisse projector delivers high-quality visuals with its 1080P FULL HD resolution and powerful 5800-lumen LED light (200 ANSI lumens of white light), ensuring a bright and vibrant viewing experience. It supports WiFi and Screen Mirroring, allowing you to easily stream content from your devices. The projector also features HDMI and USB inputs for versatile playback options and can wirelessly connect to external speakers for enhanced sound. Its Automatic Vertical Keystone correction ensures a perfectly aligned image, while the 180-degree rotation support allows for flexible multi-angle projection. The Matisse projector can display images between 32 and 120 inches from distances of 1 to 4 meters. It includes a "sky light" and "ambient light" function to enhance the viewing environment. Built-in 2 x 3W speakers provide clear audio, and the included remote control makes operation easy. With a contrast ratio of 800:1 and a lifespan of 20,000 hours, the Matisse projector is designed for long-lasting, high-performance entertainment. ABS Plastic, Glass.
