## **General information**

Article : 1PA50301 Prixton Cinema Max 100" projection screen  
number

Description : The 100" projection screen is built with four advanced layers to deliver an exceptional viewing experience. The high-permeability protective layer resists scratches, is easy to clean, and offers lasting durability. A nanometre-level diffuse reflection layer absorbs ambient light naturally, significantly enhancing image quality. The high-density PBS grid layer reduces pixelation for sharper, more detailed visuals. Finally, the blackened layer, made from ultra-black graphite, blocks light transmission and improves contrast.
