Product description

Polarized sunglasses made from plant based plastics. The high end finished frame and temples are made from Rilsan Clear G850 Rnew, a polymer derivative of castor oil. This material is a sustainable alternative to traditional plastics, and is also great for producing lightweight and flexible frames for comfortable eyewear. The lenses are polarized which eliminates reflecting sunlight, making it ideal for driving a car or during other sunny summer or winter outdoor activities. This eyewear conforms to EN ISO 12312-1, has UV400 lenses which are rated as Category 3. Delivered with a soft storage pouch (18 x 9 cm) made from recycled PET plastic, that also functions as a cleaning cloth, all packed in hard storage case (18 x 8 x 6.5 cm), also made from recycled PET plastic.

Product safety

REACH-& SVHCs
General Product Safety Regulation
PPE Regulation / UV-400 protection

Available branding options

Screenprint (size in mm)

Max. 1 color

Vector files only

On body (front)

100 X 50

Padprint (size in mm)

Max. 1 color

Vector files only

On arm, below design

45 X 3
